Efficient Test Automation on an Agile Project
by Jackie McDougall — Sopra Group

Jackie is a Principal Test Consultant at Sopra Group, providing test consultancy and support on a wide variety of projects. With seventeen years experience as a testing specialist, she is dedicated to the cause! Areas of interest are Requirements, Risk Based and BI Testing, Process Improvement, Agile methods and Automation. Jackie has been a key testing presence on many projects and pre-sales assignments within Sopra Group, and is well regarded for her clear communication of testing related ideas and material. She has presented at the Eurostar Testing Conference, and is a regular attendee at the Scottish Testing Group seminars. In her spare time, she enjoys camping and cycling with her children, reading and cooking.
