An approach of Combining Model-Based Testing with Product Family Management

by Ralf Bogusch—Cassidian

Dr. Ralf Bogusch is Expert of IV&V Processes, Methods and Tools at Cassidian in Friedrichshafen. He has more than 15 years experience in safety-relevant embedded systems projects in automotive and aerospace industry. After graduating from the University of Stuttgart, he conducted applied research in computer-aided modelling and received his PhD degree from Technical University of Aachen.

Currently, he has been working in major research projects such as CESAR, MBAT and CRYSTAL funded by European Union's Seventh Framework Programme. His main areas of interest are requirements engineering, model-based systems engineering and model-based testing.
