

Poster Session

A concept for concurrency in usage models

by Daniel Homm — Friedrich-Alexander-Universität  
Erlangen-Nürnberg

Since July 2012, Daniel is Research Assistant at the Computer Science Chair 7 (Computer Networks and Communication Systems) of the Friedrich-Alexander University Erlangen-Nürnberg

Focus:

- Model-based statistical testing
- INI.FAU ([www.ini.fau.de](http://www.ini.fau.de)) project in cooperation with Audi “Concurrency in usage models for testing in the automotive domain”.
