Model-driven Testing in the Cloud

by Steffen Herbold—Universität Göttingen

Dr. Steffen Herbold is a PostDoc in the research group of Prof. Grabowski at the Institute of Computer Science at the Georg-August-Universität Göttingen, Germany.

He received his Ph.D. in Computer Science, as well as his B. Sc. and M. Sc. degrees in Applied Computer Science from the Georg-August-Universität Göttingen.

His research interests are directed towards algorithmic learning methods and their applications in software quality assurance, testing of event-driven software systems, and usage-based testing techniques.
