

Munich, 16–18 September 2014

Organizers

Top-class speeches guarantee an exciting programme for the UCAAT 2014 in Munich

Munich, 29.08.14 – The leading conference for software and embedded testing automation will take place in Munich between 16th and 18th September, 2014.

The organizers ETSI, QualityMinds and German Testing Day have succeeded in winning leading enterprises as well as trend-setting speakers for this year's programme.

The conference will open with the fundamental question: "Why standardization is important", the topic of keynote speech delivered by Dr. Klaus Vedder, Executive Vice President of Giesecke & Devrient. Prof. Dr. Alexander Pretschner, (Technical University of Munich, Department of Software Engineering) will open the 2nd day with the Keynote on the subject "Testing with Fault Models". Prof. Dr. Andreas Zeller (University of Saarland, Department of Software Technology), will be talking about "Mining Oracles for Fully Automated Test Generation" on the 3rd day of the event.

A special interactive session dedicated to the standardization of tests will be held on September 16th. Other key themes of the conference include model-based testing and cloud testing.

Sepp.med and Siemens are the official Platinum Sponsors of the conference. The Gold Sponsors are: brightONE, Bernese & Mattner, Conformiq, Ericsson, MBTech and Testing Technologies. The media include Testing Experience, ASQF, SQ-Magazin and the MBT Community.

For more information on the programme, please visit: www.ucaat.etsi.org/2014/Program.html

About ETSI

ETSI produces globally-applicable standards for Information and Communications Technologies (ICT), including fixed, mobile, radio, converged, aeronautical, broadcast and internet technologies and is officially recognized by the European Union as a European Standards Organization. ETSI is an independent, not-for-profit association whose more than 700 member companies and organizations, drawn from 63 countries across five continents worldwide, determine its work programme and participate directly in its work. www.etsi.org

About German Testing Day & Nights

German Testing Day – The Software Conference organized by Testers for Testers.

The German Testing Day and the German Testing Nights build an independent platform for the testing community. The focus of these conferences is to share experiences from different people involved in the area of quality assurance. The events are organised and led by an independent board of representatives from diverse IT end-customer industries and from academic circles. www.germantestingday.info

About QualityMinds

"Quality is not a coincidence" – true to this motto, QualityMinds advise their clients on various topics, including test management, test automation and model-based testing. The combination of

methodological knowledge and experience is the key to the company's success in software development projects. Their main focus lies in agile, offshore and mobile testing, management of test surroundings, as well as testing in large-scale projects. QualityMinds delivers expert test assessment combined with consulting services on subjects such as: requirements engineering, software architecture and roll-out management. www.qualityminds.de
