UCAAT AT A GLANCE

250 experts and decision-makers from around the world are expected for this 3rd edition

UCAAT (User Conference on Advanced Automated Testing) is a privileged place for exchanging ideas and sharing experiences. The event is dedicated to all quality and testing professionals involved in IT Systems (developers, engineers, experts, project or quality managers), from all sectors of activities (Telecoms, Bank/Insurance, ESN, Transports, Software Publishing, Security, Public Services...).

The objective is to offer the international community the opportunity to have an annual update on standards and technologies, enabling companies to be more competitive.
The conference will showcase the latest innovations in test automation, and will address many issues such as the standardization of the Test Description Language (TDL), but also test automation in agile environments, Model Based Testing, or mobile applications.

Organized around three days, this event aims to introduce innovative approaches, methodologies, experience, best practices and tools, allowing today industrial and services networks to increase their productivity and ensure the quality of their software solutions.

UCAAT is organized by the Technical Committee "Methods for Testing and Specifications" (TC MTS) of the European Telecommunications Standards Institute (ETSI), with more than 800 member companies and organizations, drawn from 64 countries across five continents. ETSI produces globally-applicable standards for Information and Communication (ICT), including fixed, mobile, radio, converged, aeronautical, broadcast and internet technologies. ETSI is officially recognized by the European Union as the European Standards Organization.

This event echoes ETSI's mission to promote automated testing to the relevant main actors, decision makers and observers of the market on a national and global scale.

UCAAT is the successor to the international conference MTB UC (Model-Based Testing User Conference) held in 2011 in Germany and in 2012 in Estonia.

The program committee, chaired by Bruno Legeard, Smartesting Solutions & Services (France), regroupe des universitaires, des industriels et des éditeurs de nombreux pays : Thomas Arts, QuviQ, (Sweden) / Bob Binder, System Verification Associates (USA) / Luca Compagna, SAP SE (France) / Tibor Csöndes, Ericsson, (Hungary) / Jurgen Grossmann, Fraunhofer FOKUS, (Germany) / Baris Guldali, S-Lab Paderborn, (Germany) / Kristian Karl, Spotify, (Sweden) / Rachid Kherrazi, Nspyre, (Netherlands) /Andras Kovacs, BroadBit (Slovakia) / Anne Kramer, sepp.med, (Germany) / Gabriel de Labachelerie, Amadeus, (France) / Franck Le Gall, EasyGlobalMarket, (France) / Andrus Lehtmets, Elvior, (Estonia) / Philip Makedonski, University of Göttingen, (Germany) / Michael Mlynarski, Qualityminds, (Germany) / Dejan Nickovic, AIT, (Austria) / Andrej Pietschker, Giesecke & Devrient, (Germany) / Stephan Schulz, Conformiq, (Finland) / Szilard Szell, NSN, (Hungary) / Andreas Ulrich, Siemens, (Germany) / Frédérique Vallée, All4tec, (France) / Theo Vassiliou, Testing Tech, (Germany) / Elisangela Viera, Alcatel, (France) / Anthony Wiles, ETSI (France)

3 DAYS DEDICATED TO ADVANCED AUTOMATED TESTING

During three days, the UCAAT event will cover the following:

- ☛ **Tuesday, 20 October 2015:** The first day will feature tutorials and round tables discussions on the application of test process in multiple environments.
- ☛ **Wednesday, 21 and Thursday, 22 October 2015:** Both days are dedicated to conferences on issues such as the standardization of Test Description Language (TDL), test automation in agile environments, Model Based Testing, or mobile applications.

The exhibition area will offer companies the opportunity to promote their know-how and solutions

The time schedule will be available shortly on the web site http://ucaat.etsi.org/2015

UCAAT 2015 MILESTONES

The registrations will be open soon at http://ucaat.etsi.org/2015

- **30 May**: Abstract submission
- **8 July**: Program publication
- **28 September**: Submission of final presentations

SPONSOR FOR UCAAT

For this event, a complete file for exhibitors and potential sponsors is available on the event's website. There are four levels of sponsorship available.
